

Web Site Hosting service from Bell

Optimize your online communications with Web Site Hosting service from Bell

Businesses rely on their Web sites as an essential tool for communicating with customers, generating sales and conducting transactions. Whether managing a site in-house or through a hosted service, keeping control over constantly changing design and infrastructure requirements can turn into a complex and demanding job.

The key to having a successful Web site is access to flexible, secure and reliable infrastructure and support from a trusted supplier that can easily meet changing business needs. That kind of security and peace of mind can be found with Web Site Hosting service from Bell.

Solution

Web Site Hosting service from Bell is a comprehensive solution for businesses looking to establish an online presence or to expand their existing Web site capabilities. Bell can help you resolve the complexities and challenges of setting up and managing your Web site by offering reliable, secure and affordable hosting services that can quickly be adapted to meet your evolving needs.

Web Site Hosting service also includes a range of powerful, easy-to-use, self-serve tools to help you design your site, and enable advanced applications such as e-commerce and video streaming.

Business benefits

Web Site Hosting service from Bell offers many benefits, including:

- Accessibility that is secure and reliable – As a trusted provider of Web site hosting services, you can be confident in knowing that your Web site will be available to your customers and their information and data are protected
- Flexibility to adapt with changing demand – Our comprehensive range of hosting plan options can address customer needs, from simple Web site features and functions to more complex applications, such as e-commerce, and audio and video streaming
- Round-the-clock support – Bell provides 24/7 bilingual live help desk support for customers needing technical assistance
- Easy-to use self-serve tools – Bell provides a full range of online tools to help you get online quickly and easily, while giving you greater control to design and manage your Web site

Service features

Choose from a variety of hosting packages that can easily be upgraded as business or customer demands change, without the need for capital investment in hardware or software.
