

Application to Renew a Broadcasting Licence for an INDIVIDUAL Cable Distribution Undertaking OR Application to Obtain a REGIONAL Broadcasting Licence for Cable Distribution Undertakings

GENERAL INSTRUCTIONS

1. Filing

File electronically via [Access Key](#) by attaching the application to the [Cover page](#). Access Key allows secure transmissions to the Commission and also authenticates your identity. Therefore, a signature is not required when using Access Key. Applicants who file their application in this manner are not required to submit a hard copy of the application and its related documents.

Applicants who cannot send their application electronically with the Access Key service can contact the Commission at 1-877-249-CRTC (2782).

Applicants who need further information relative to the CRTC processes can contact a Commission specialist at 1-866-781-1911.

2. Confidentiality requests

At your request, portions of the application may be treated as confidential, pursuant to section 20 of the *CRTC Rules of Procedure*.

The onus is on the applicant to request confidentiality for the information or material and to clearly demonstrate that the public interest will best be served by treating the information as confidential. For further information, refer to Circular No. 429 dated 19 August 1998.

Applicants must ensure that documents that they request be treated as confidential are submitted in a separate electronic file and must indicate *confidential* in the name of the file. It is incumbent upon applicants to clearly identify the confidential documents by indicating confidential on each page and, in such cases, to file an abridged version of the document for the public file. Please refer to Broadcasting Circular CRTC [2006-5](#), *Guidelines for the filing of confidential information to the Commission*.

3. Instructions

The following questionnaire is in HTML format and may be [downloaded](#) to the word processing software of your choice. This enables you to complete the downloaded questionnaire by inserting your response in bold letters immediately following the question. You may add lines to the tables if necessary but do not alter or delete any text from the questionnaire.

The application must be divided into sections as set out in the questionnaire, and include the numbered questions followed by the corresponding response. Responses must be provided, at a

minimum, in a size 10 font.

Naming convention for the electronic documents

The following documents should be submitted as separate electronic documents using the naming convention specified below. The document number (Doc#) indicates the ascending order in which the documents should appear on the public file.

- The Covering Letter (if any) - APP - Doc1 - Cover Letter dated ____
- The Application Form - APP - Doc2 - Form 136 « Application to Renew a Broadcasting Licence for an INDIVIDUAL Cable Distribution Undertaking OR Application to Obtain a REGIONAL Broadcasting Licence for Cable Distribution Undertakings»
- Appendix 1A - APP - Doc3 - Appendix 1A - Supplementary Brief
- Appendix 2A - APP - Doc4 - Appendix 2A - Amendments to constituting documents
- Appendix 5A - APP - Doc5 - Appendix 5A - Service Area Map(s)
- Appendix 6A - APP - Doc6 - Appendix 6A - Service Area Maps
- Each confidential document - NOT WEB - APP - Doc - CONFIDENTIAL - "brief description of the document"
- Each abridged version of each confidential document - APP - Doc - ABRIDGED VERSION - "same description of document for which confidentiality is requested"

The Commission may return the application if it has not been duly completed or if the required technical documentation has not been filed with Industry Canada. The onus will be on the applicant to submit a clear application that provides all of the relevant information, identifies all regulatory issues raised in the application and provides supporting documentation.

4. Public examination file

Copies of the Commission's letters requesting further information and copies of your replies form part of the application and must be available for examination by the public.

- 4.4 Have you assigned, or will you assign, a senior level person to be responsible for tracking progress and monitoring results?

YES ()

NO ()

If YES, what authority does or will that person have to ensure goals are achieved?

- 4.5 What financial resources do you have or will you put in place to promote employment equity in the workplace (for example, funds for daycare, access for persons with disabilities, etc.)?

5. SERVICE INFORMATION - INDIVIDUAL CABLE LICENCE RENEWAL

Section 5 - To be completed only if applying for an individual cable licence renewal

NOT APPLICABLE See section 6.

- 5.1 Please indicate the location of the licensed area, as indicated on the current licence, and provide the coordinate of the local head-end, if applicable.
- 5.2 Provide the number of basic subscribers.
- 5.3 **Distribution of services**

Provide/confirm a website address where the distribution grid (i.e., the channel lineup) is listed, according to the licensed location. The distribution grid must contain the call sign and location or service name of each programming service, as well as the mode of distribution [basic (B) or discretionary (D)] and channel or frequency on which each signal is distributed (refer to Broadcasting Information Bulletin [2009-384](#)).

Interconnection

5.4 If the undertaking is fully interconnected with another undertaking, specify the primary location of this undertaking:

Interconnection with Undertaking	Location

Community channel

5.5 For licensees that elect to distribute a community channel, outline how you will be operating fully in accordance with section 27 of the *Broadcasting Distribution Regulations*.

For licensees that provide community programming in the greater Toronto, Montreal and Vancouver areas, set out or update your plans and commitments as to how you will reflect the various geographic communities within your licensed areas in these urban centres.

Industry codes

5.6 The licensee accepts as conditions of licence to adhere to the following codes during all hours of the broadcast day:

- a) The *Cable Television Community Channel Standards*, (Public Notice [1992-39](#) dated 1 June 1992), as amended from time to time and approved by the Commission.

YES ()

NO ()

If NO, provide reasons.

- b) The *CAB Violence Code* (Public Notice CRTC [1993-149](#), *Voluntary Code Regarding Violence in Television Programming*, dated 28 October 1993 and [Letter - Re: CAB Violence Code - revised title](#), dated 8 September 2008), as amended from time to time and approved by the Commission (applicable to community programming and any other programming of a service that it originates).

YES ()

NO ()

If NO, provide reasons.

Accessibility

5.7 The *Broadcasting Act* states that "programming accessible by disabled persons should be provided within the Canadian broadcasting system as resources become available for the purpose." Describe the steps you are taking to make your service more accessible to people who are blind or visually impaired and to people who are deaf or hearing impaired, in particular in the following areas:

- a) customer service, for example billing, customer information, or dealing with complaints;
- b) program guides/electronic program guides;

- c) pass-through of described programming provided on the Secondary Audio Program (SAP) signals of Canadian broadcasters, where appropriate;
- d) pass-through of described programming provided on the SAP signals of non-Canadian broadcasters, where appropriate; and
- e) any other mechanisms designed to make your services more accessible for people with visual or hearing impairment.

Supporting document to be appended:

**Appendix 5A Service area maps
(refer to Broadcasting Information Bulletin CRTC [2009-384](#))**

Provide a service area map that reflects the boundaries of the service area in one of the following formats:

- standard image (e.g., GIF, JPEG, TIFF, BMP)
- PDF file format
- GIS-compatible file format, electronically or on a CD-ROM

A map provided in a standard image or PDF file format must be in a scale that readily permits precise identification of the boundaries of the service area and depicts the location in relation to its surrounding areas. This map must provide a level of detail comparable to that contained in the paper map previously required by the Commission (1:50,000 NTS topographical map).

A map provided in a GIS-compatible file format must be created using a map datum of NAD83. The Commission will only accept the following GIS-compatible file extensions:

- MapInfo format (.tab)
- MapInfo Interchange format (.mid/.mif)

Licensees are encouraged to post their service area maps on their respective websites.

6. SERVICE INFORMATION - REGIONAL CABLE LICENCE

- 6.1** Please indicate the location of the licensed areas, as indicated on the current licence of each undertaking that will be part of the proposed regional cable licence and provide the coordinates of the local head-ends, if applicable.

Bell Canada has included lists of secondary locations in the surrounding areas. The licensed area is as per the maps provided.

Distribution of services

6.4a) **In the case of existing undertakings, for each undertaking**, provide/confirm a website address where the distribution grid (i.e., the channel lineup) is listed, according to the licensed location. The distribution grid must contain the call sign and location or service name of each programming service, as well as the mode of distribution [basic (B) or discretionary (D)] and channel or frequency on which each signal is distributed (refer to Broadcasting Information Bulletin [2009-384](#)).

http://bell.fibetv.s3.amazonaws.com/en/resources/pdf/FibeChannelList_ONT_ENG_Nov9.pdf

b) **In the case of new undertakings forming part of a new or existing regional licence**, provide a list of proposed services to be distributed by each distribution undertaking: **See Attachment 2 for complete response.**

DISTRIBUTION OF SERVICES				
Programming services Call Sign, Location, or Service Name	Service Type (TV or Audio)	Reception Method (Off-air, Satellite, etc.)	Mode of Distribution (Basic(B) or Discretionary(D))	Channel or Frequency on which signal will be distributed
1.				
2.				
3.				
4.				
5.				

NOTE:An applicant that is awarded a regional licence or the authority to implement a new undertaking under an existing regional licence will be required to provide, at the same time it informs the Commission that it is ready to commence operations, a website address where its distribution grid(s) is/are posted (refer to Broadcasting Information Bulletin CRTC [2009-384](#)).

Interconnection

6.5 If an undertaking is fully interconnected with another undertaking, specify the primary location of this undertaking: **NOT APPLICABLE**

Interconnection with Undertaking	Location

Community channel

6.6 For licensees that elect to distribute a community channel, outline how you will be operating fully in accordance with section 27 of the *Broadcasting Distribution Regulations*, for each undertaking forming part of the proposed regional cable licence.

Bell Canada’s community channel manager is fully conversant with the provisions of s.27 of the *Broadcasting Distribution Regulations* (as amended) and the Commission’s *Community Television Policy* as set out in Broadcasting Regulatory Policy CRTC 2010-622. As part of periodic reviews of Bell’s community channel, each element of the *Regulations* and policy will be reviewed against practices in the prior period, and corrective actions, if any, will be undertaken for future periods.

For licensees that provide community programming in the greater Toronto, Montreal and Vancouver areas, set out or update your plans and commitments as to how you will reflect the various geographic communities within your licensed areas in these urban centres.

Bell will maintain records of the various communities represented, and attempt to balance the interest of various communities within Toronto and Montréal by reaching out to under-represented communities, when and where identified. This will present certain challenges for Bell because, unlike the incumbent, it does not have a long history of serving greater Toronto and greater Montreal, and its community channel will be in start-up mode, and have limited resources in comparison to the incumbent’s. Nevertheless, Bell will attempt to achieve a balance over the term of its licence.

Industry codes

6.7 The applicant/licensee accepts as conditions of licence to adhere to the following codes during all hours of the broadcast day:

- a) The *Cable Television Community Channel Standards*, (Public Notice CRTC [1992-39](#) dated 1 June 1992), as amended from time to time and approved by the Commission.

YES (X)

NO ()

If NO, provide reasons.

- b) The *CAB Violence Code* (Public Notice CRTC [1993-149](#) dated 28 October 1993), as amended from time to time and approved by the Commission (applicable to community programming and any other programming of a service that it originates).

YES (X)

NO ()

If NO, provide reasons.

Accessibility

- 6.8 The *Broadcasting Act* states that "programming accessible by disabled persons should be provided within the Canadian broadcasting system as resources become available for the purpose." Describe the steps you are taking to make your service more accessible to people who are blind or visually impaired and to people who are deaf or hearing impaired, in particular in the following areas:

- a) customer service, for example billing, customer information, or dealing with complaints;

Bell Canada has redesigned Bell.ca using WCAG 2.0 accessibility principles. In the Accessibility services section of Bell.ca, customers with disabilities can now browse Bell's products and services by five key disability types: Physical (mobility and dexterity), Speech, Hearing, Vision and Cognitive.

Bell Canada is also taking steps to ensure that all customer-facing employees have a basic understanding of accessible customer-service.

Upon request, Bell Canada offers bills, bill inserts and more in alternate formats. Channel listings are available online.

For service, general accessibility questions or complaints, customers with disabilities can contact the Accessibility Services call centre or can ask to be directed to the Accessibility Services call centre at anytime. Bell Canada is currently taking steps to increase public awareness of the Accessibility Services call centre and the accessible products and services offered by Bell Canada.

- b) program guides/electronic program guides;

Closed Captioning (CC) information is provided in the program information screen or the detailed guide information section of the guide view.

- c) pass-through of described programming provided on the Secondary Audio Program (SAP) signals of Canadian broadcasters, where appropriate;

Bell Canada passes DV audio on all channels that are providing DV. The customer must enable the DV through the settings menu.

- d) pass-through of described programming provided on the SAP signals of non-Canadian broadcasters, where appropriate; and

See response to 6.8 c) above.

- e) any other mechanisms designed to make your services more accessible for people with visual or hearing impairment.

Under the Deferral Obligation to improve products and services for persons with disabilities, Bell Canada partnered with IBM to perform a product assessment of Bell FIBE TV. We are currently reviewing the assessment and opportunities for improvements to TV products and services for persons with disabilities that can be made under the Deferral Obligation.

Bell Canada is also engaged in ongoing dialogue with Microsoft, the software provider for our IPTV service, to determine the feasibility of possible improvements. Any enhancements that Bell Canada requests will need to be assessed against Microsoft's global development priorities.

Supporting document to be appended:

**Appendix 6A Service area maps*
(refer to Broadcasting Information Bulletin CRTC [2009-384](#))**

***For the purpose of public examination, Bell Canada has posted a condensed version of its service area maps. See link at section 1.4 of this form.**

In the case of existing undertakings:

Provide service area maps that reflect the boundaries of the service areas in one of the following formats:

- standard image (e.g., GIF, JPEG, TIFF, BMP)
- PDF file format
- GIS-compatible file format, electronically or on a CD-ROM

Maps provided in a standard image or PDF file format must be in a scale that readily permits precise identification of the boundaries of the service areas and depicts the locations in relation to their surrounding areas. These maps must provide a level of detail comparable to that contained in the paper map previously required by the Commission (1:50,000 NTS topographical map).

Maps provided in a GIS-compatible file format must be created using a map datum of NAD83. The Commission will only accept the following GIS-compatible file extensions:

- MapInfo format (.tab);
- MapInfo Interchange format (.mid/.mif).

Licensees are encouraged to post their service area maps on their respective websites.

In the case of new undertakings:

Provide proposed service area maps following the specifications set out above.

Response to Question 6.4 b)

Ontario Regional Licence

Section 6.4 b): "In the case of new undertakings forming part of an existing regional licence, provide a list of proposed services to be distributed by each distribution undertaking."

Response: See tables below for new serving areas in Kingston, Peterborough, and Stratford Ontario.

Distant signals will be distributed pursuant to the consent regime established at paragraphs 302-312 of Broadcasting Public Notice CRTC 2008-100, *Regulatory Frameworks for broadcasting distribution undertakings and discretionary programming services*.

Bell will distribute HD and SD versions of conventional television signals. For Mandatory, Category A, Category B, Category C, Pay-TV, and ESS services, Bell will distribute the HD versions as available.
