**1. Description of Service.**

The Bell Service denies business lines access to message toll services by blocking the Operator ("0") and Direct Distance Dialing ("0+") & ("1+") codes. The Bell Service is provided, subject to the availability of suitable equipped central office switching equipment, on individual lines, 2-party lines, foreign exchange lines, Digital Exchange Access PSTN connectivities, standalone Microlink B or VB channels, digital foreign exchange channels and other services as specified by Bell.

**2. Service Charges.**

In addition to the Fees, Bell may apply service charges ("**Service Charges**") from time to time, including without limitation in connection with (i) orders, rulings, mandates or directives received from the CRTC; and (ii) for work associated with the set-up, installation and/or movement and rearrangement of the Bell Services including without limitation, a set-up charge for existing business lines, channels or PSTN connectivities, except that it does not apply to restrict the first line, channel or PSTN connectivity of Customer's order to be completed at the same time on the same premises. Bell may increase the Service Charges from time to time.
