

SCHEDULE "V" TO UNREGULATED TERMS OF SERVICE - VOICE AND INTERNET (BUSINESS CUSTOMERS) ("Agreement")

Trench Provisioning

General Information.

Bell's **Trench Provisioning** service ("**Bell Service**") is provided to you as Customer by Bell in accordance with the Agreement as well as the additional terms set out in this Schedule.

1. Description of Service.

This Bell Service is for provisioning of a trench, by Bell, in a new residential subdivision. When Bell furnishes facilities in a proposed subdivision, Bell selects the facility design for, and location of, the trench. Notwithstanding, when Bell is requested to provide buried facilities, an acceptable trench in an acceptable location must be provided by Customer, for the purpose, at no charge to Bell.

2. Fees and Billing Terms.

Customer shall pay to Bell Bell's then current and prevailing rate and fees for trench provisioning ("**Fees**"). The Fees do not include the following charges which are all in addition to the Fees ("**Charges**"):

- non-refundable bid charge for Bell to provide a quote for the provision of a trench at the request of an applicant;
- administration charge;
- trench construction charge which is based upon the actual cost incurred; and
- buried facilities charges; together with any additional costs beyond Bell's control as described in, but not limited to, the Terms and Conditions below.

3. Terms and Conditions.

When Bell is requested to provide the Bell Service for the proposed subdivision, the following conditions apply:

- Applicant must identify the proposed location of the requested trench and the utility companies involved where joint-use of the trench is proposed.
- When a trench is for Bell's sole use, the trench must meet Bell's specifications.
- When Applicant requests a joint-use trench with other utilities, and the requirements of the requested trench are greater than that which would be required for the provision of facilities by Bell, then any such requirements shall be set out in a separate agreement between Bell and Applicant.
- Payment of the appropriate Bid Charge, and other specified Fees and Charges, must accompany each applicant's request.
- Bell will provide a quotation which will include an estimate of trench construction charges plus administration charges.
- The quotation amount, including the administration charges plus an estimate of all other Fees and Charges, are payable when

Applicant accepts the quotation and authorizes Bell to proceed with construction of the trench.

- Applicant is responsible for all additional costs, including but not limited to removal of stone, rock or other obstacles, or construction delays beyond Bell's control, encountered during actual trench construction. These additional costs are payable upon completion of the trench.

4. Service Charges.

In addition to the Fees Charges and other fees and charges payable hereunder, Bell may also apply service charges ("**Service Charges**") from time to time, including without limitation in connection with (i) orders, rulings, mandates or directives received from the CRTC; and/or (ii) for work associated with the installation and/or movement and rearrangement of Bell Services. Bell may increase the Service Charges from time to time.
