

Mobile solutions for hospitality.

Create customer experiences that keep guests coming back.

With guests that want to stay connected, integrating innovative technology into the hospitality experience is essential for customer engagement and loyalty. From one-touch communications, to tablets, digital signage and wireless payment solutions, Bell offers a variety of mobile solutions to help hospitality businesses provide their customers with exceptional service.

Push-to-talk (PTT).

Keep your service team connected with one-touch communication.

- Allow the concierge, guest services and cleaning staff to stay connected constantly using the group calling feature to fulfill customer requests quickly
- Call for baggage or valet service without leaving the customer's side

Tablets.

Make information easy to access for customers and employees.

- Make it easier for customers to order room service, set up dinner reservations, make spa appointments and research local attractions – all from one screen
- Empower employees to make/change reservations, check-in guests, purchase tickets to shows, place food orders or monitor wait times from anywhere in the hotel

Wireless point of sale (POS).

Process payments from anywhere in the hotel.

- Maximize sales opportunities by allowing customers to make payments at a hotel pool, from their table at a restaurant, or anywhere on the property
- Shorten wait times by collecting payments on the go

Digital signage.

Share key information with guests.

- Provide helpful information like directions to conference rooms at the hotel, or promote on-site restaurants and shops
- Deliver targeted content from a central location in real-time

Digital forms.

Capture information electronically and reduce reliance on paper.

- Send work orders electronically to housekeeping and maintenance teams, and get real-time updates of completed work
- Reduce check-in/out time by gathering guest information digitally as they enter/leave your establishment
