

## Changes to Bell service rates.

Every year, Bell invests over \$3.5 billion in its network infrastructure. These investments enable us to keep providing exceptional new features, even faster Internet technology, world-class entertainment as well as the capacity necessary to support an exponential growth in the use of communications services. In order to support these investments, we will be adjusting some of our service rates as of April 1, 2018. To verify what changes apply to your service(s), please refer to the chart below.

Services	Rate adjustment
Long Distance International Plus package	+\$1/mo.
Long distance per-minute rates*	+10%
Home phone packages	+\$2/mo.
Internet service	+\$5/mo.
Internet usage above plan is increasing from \$3 to \$4/additional GB	

\*Only applies to long distance calls made outside of a long distance package. For information about per-minute rates, visit [bell.ca/longdistance](http://bell.ca/longdistance).

Your current pricing is reflected on your most recent bill.

If you are currently enjoying a fixed promotional rate, it will remain in effect during the promotional period.

If you have any questions, or wish to cancel or modify your services, please call us at 310-BELL (2355).

Thank you for choosing Bell. We appreciate your business.
