
Setting up your Apple Watch for wireless connectivity.

1. Make sure your iPhone is updated to iOS 12 or later, you've registered for MyBell and have your username and password ready.
2. Ensure Bluetooth is turned on and that your iPhone is connected to the Bell network or Wi-Fi.
3. Launch the Apple Watch app on your iPhone and tap **Start Pairing**.
4. After Apple Watch pairing is complete, tap **Set Up Cellular**.
5. Add the Smartwatch plan for \$10/mo.
6. Enter your MyBell username and password.
7. Continue to follow the prompts on your iPhone to confirm Apple Watch activation on the Bell network.
8. To sync all of your available iPhone apps on your Apple Watch tap **Install All**.

A \$10 one-time connection charge applies.

Ask us for details. Smartwatch plan is only available with an unlimited Canada calling plan within Bell Mobility VoLTE network coverage areas and areas covered by Wi-Fi, where technology permits. Cellular calling on your Apple Watch works on Voice Over LTE technology (VoLTE not available in Saskatchewan; see bell.ca/VoLTE). When your Apple Watch is connected to a Wi-Fi network, services will only function via Wi-Fi. Important limitations about emergency calls over Wi-Fi apply, see bell.ca/wificalling. Services subject to acceptable use restrictions. See bell.ca/acceptableuse. Apple Watch (GPS + Cellular) requires an iPhone 6 or later with iOS 12 or later.
