
Setting up your Samsung Galaxy Watch for wireless connectivity.

1. Make sure your Samsung phone is updated to the latest software version, you've registered for MyBell and have your username and password ready.
2. Ensure Bluetooth is turned on and that your Samsung Phone is connected to the Bell network or Wi-Fi.
3. Launch the Samsung Wearable app on your Samsung phone and tap **Start The Journey**.
4. Add the Smartwatch plan for \$10/mo.
5. Enter your MyBell username and password.
6. Continue to follow the prompts on your Samsung phone to confirm Samsung Galaxy Watch activation on the Bell network.
7. After Samsung Galaxy Watch pairing is complete, ensure your watch is updated to the latest software via the Wearable app.

A \$10 one-time connection charge applies.

Ask us for details. Smartwatch plan is only available with an unlimited Canada calling plan within Bell Mobility VoLTE network coverage areas and areas covered by Wi-Fi, where technology permits. Cellular calling on your Apple Watch works on Voice Over LTE technology (VoLTE not available in Saskatchewan; see bell.ca/VoLTE). When your Apple Watch is connected to a Wi-Fi network, services will only function via Wi-Fi. Important limitations about emergency calls over Wi-Fi apply; see bell.ca/wificalling. Services subject to acceptable use restrictions. See bell.ca/acceptableuse. Apple Watch (GPS + Cellular) requires an iPhone 6 or later with iOS 12 or later.
