

Mobile solutions for wholesale and distribution.

Manage inventory efficiently and fulfill orders quickly.

Maximizing the efficiency of your warehouse and supply chain is vital for business. Mobile solutions from Bell allow your warehouse operators, delivery drivers and service staff to work together more productively to ensure that optimal inventory levels are maintained, and that products are delivered to retailers in a timely manner.

Asset management.

Monitor inventory levels and assets.

- Track valuable assets throughout the supply chain to prevent theft and loss
- Control carrying costs by optimizing inventory levels and providing just-in-time delivery to retailers
- Set up diagnostic alerts to ensure that equipment is properly maintained

Fleet management.

Track your vehicles in real-time.

- Manage fuel costs by planning efficient routes and monitoring engine idling
- Minimize cargo spoilage with up-to-the-minute temperature alerts
- Keep customers informed of delivery status and help shorten delivery times

Push-to-talk (PTT).

Connect instantly with the push of a button.

- Keep in immediate contact with customer service staff, warehouse operators and drivers in Canada and the U.S.
- Assign tasks, get status reports and coordinate with your team with one touch
- Make PTT calls with up to 249 people at once, while simultaneously checking emails
- Make group calls with warehouse operation managers, sales managers and distributors

Digital forms and workforce management.

Collect work data on site and send to the office instantly.

- Improve quality control inspections by creating custom forms
- Dispatch work orders to warehouse operators on site and to distributors on the road
- Capture signatures on mobile devices and send delivery confirmations instantly

Tablets.

Access information quickly.

- Track the location of deliveries in real-time, and solve issues immediately
- Access shipping and receiving information, inventory levels and optimal delivery routes
- View planograms and company information from anywhere
